and NSD File No. L-00-72.

Dear FCC:

I am 22 years old. I just got married, and i have a low paying job. I cant afford for my cell phone charges to go up. Please think about what your doing. I dont have the money to get a cell phone and pay a monthly bill, this is the only way i can afford to have a cell phone, and with the way things are these days, i feel this is the only way im safe. Please dont take that safe feeling away.
thanks, Hope Whorton, Piedmont AL.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Hope Whorton

ne. Please do not penalize us. Keep this fair.

My son and daughter both have a tracphone for emergency use and they buy the minutes themselves. It would really be a shame is the price had to go up. On a part time job salary they do no have much money.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
